

Fifth circular: Conference announcement – Important notices

Dear colleagues,

We would like to remind you of the conference

8th German-Brazilian Symposium on Sustainable Development
Facing human impacts: the challenges for society and for science

to be held at **Pontifícia Universidade Católica do Rio Grande do Sul (PUCRS), from October 02 - 07, 2017**. With the proximity of the event, we would like to highlight some important information:

- **Oral presentation:** In the next days, we will make available on the event website the order of the oral presentations. We remind you that support materials for the presentation should be in ppt or pdf formats and should be brought to the event on a USB flash memory. We suggest that presenters will be in the places of their sessions 10 minutes before the beginning of the session to organize the materials of their presentation.
- **Poster presentation:** The poster size is a portrait A0, which can be printed on canvas or paper and will be responsive to the presenters. The poster must be taken to the place of presentation only on the day of your session. Participants who will make the poster presentations must be in the Annex Room of the PUCRS Building 50 (ground floor) 30 minutes before the scheduled time of the closing of the oral presentations of each session.
- **Registration:** All participants enrolled in the online application form must register with the orgateam that will be located on the ground floor of PUCRS Building 50. This procedure is mandatory for the withdrawal of the event kits and for issuing certification.
- **Certification:** Certificates will be issued for attendees who appear on the attendance list with a minimum of 75% attendance and the registration fee paid. At the place of accreditation, attendance lists are available, in which participants must mark their presence daily. The certificates will be available in digital format for access. Participants will receive an email notification when they are available, within 30 days of the event.
- **Excursions:** The exit of all the excursions will be in front of Building 50. Monitors will be in front of the building, with signs indicating the name of the excursion so that the participants find their group. All the participants enrolled in the excursions must be at the locality 20 minutes before combined time for departure.
- **Dinner:** we invite all participants to join us at the official dinner of the event, on October 4, from 8pm, at Churrascaria Galpão Crioulo (Otávio Francisco Caruso da Rocha St., Parque Harmonia). At own expenses.

Further information is available on the event website:
