

A laboratory complex for calibration and tests relying on more than 25 years of accreditation by **Inmetro's General Accreditation Board (Cgcre)**, internationally recognized for its competence in the provision of conformity assessment services.

We are mostly devoted to meeting the needs of world-level manufacturers and importers. The services we provide comply with international norms, such as **ISO** and **IEC**. In view of the mutual recognition agreements established by the **International Laboratory Accreditation Cooperation (ILAC)**, the results of calibration and tests performed by the **LABELO** team can be employed in more than 90 countries, including the **USA, Germany, the UK, Australia, China, South Korea and Japan**.

On top of that, we offer attractive fees for the provision of services to the North American, European and Asian markets, and provide our partners with the necessary trust and agility to get access to the main global markets. **You must know that Brazil is also a member of mutual recognition agreements with the International Laboratory Accreditation Cooperation (ILAC) and the Environmental Protection Agency (EPA)**.

Our team will be ready to help you fulfil the national requirements for product certification and access to the Brazilian and Latin American markets. You can check the accredited services on the **LABELO** website, in English and Portuguese. You can also contact us at **(+ 55 51) 3320.3901** or **(+ 55 51) 3353.4186**.

The calibration and/or testing procedures carried out at LABELO are internationally recognized.

Multiple analyses of services are unnecessary since their technical competence is certified by Cgcre.*

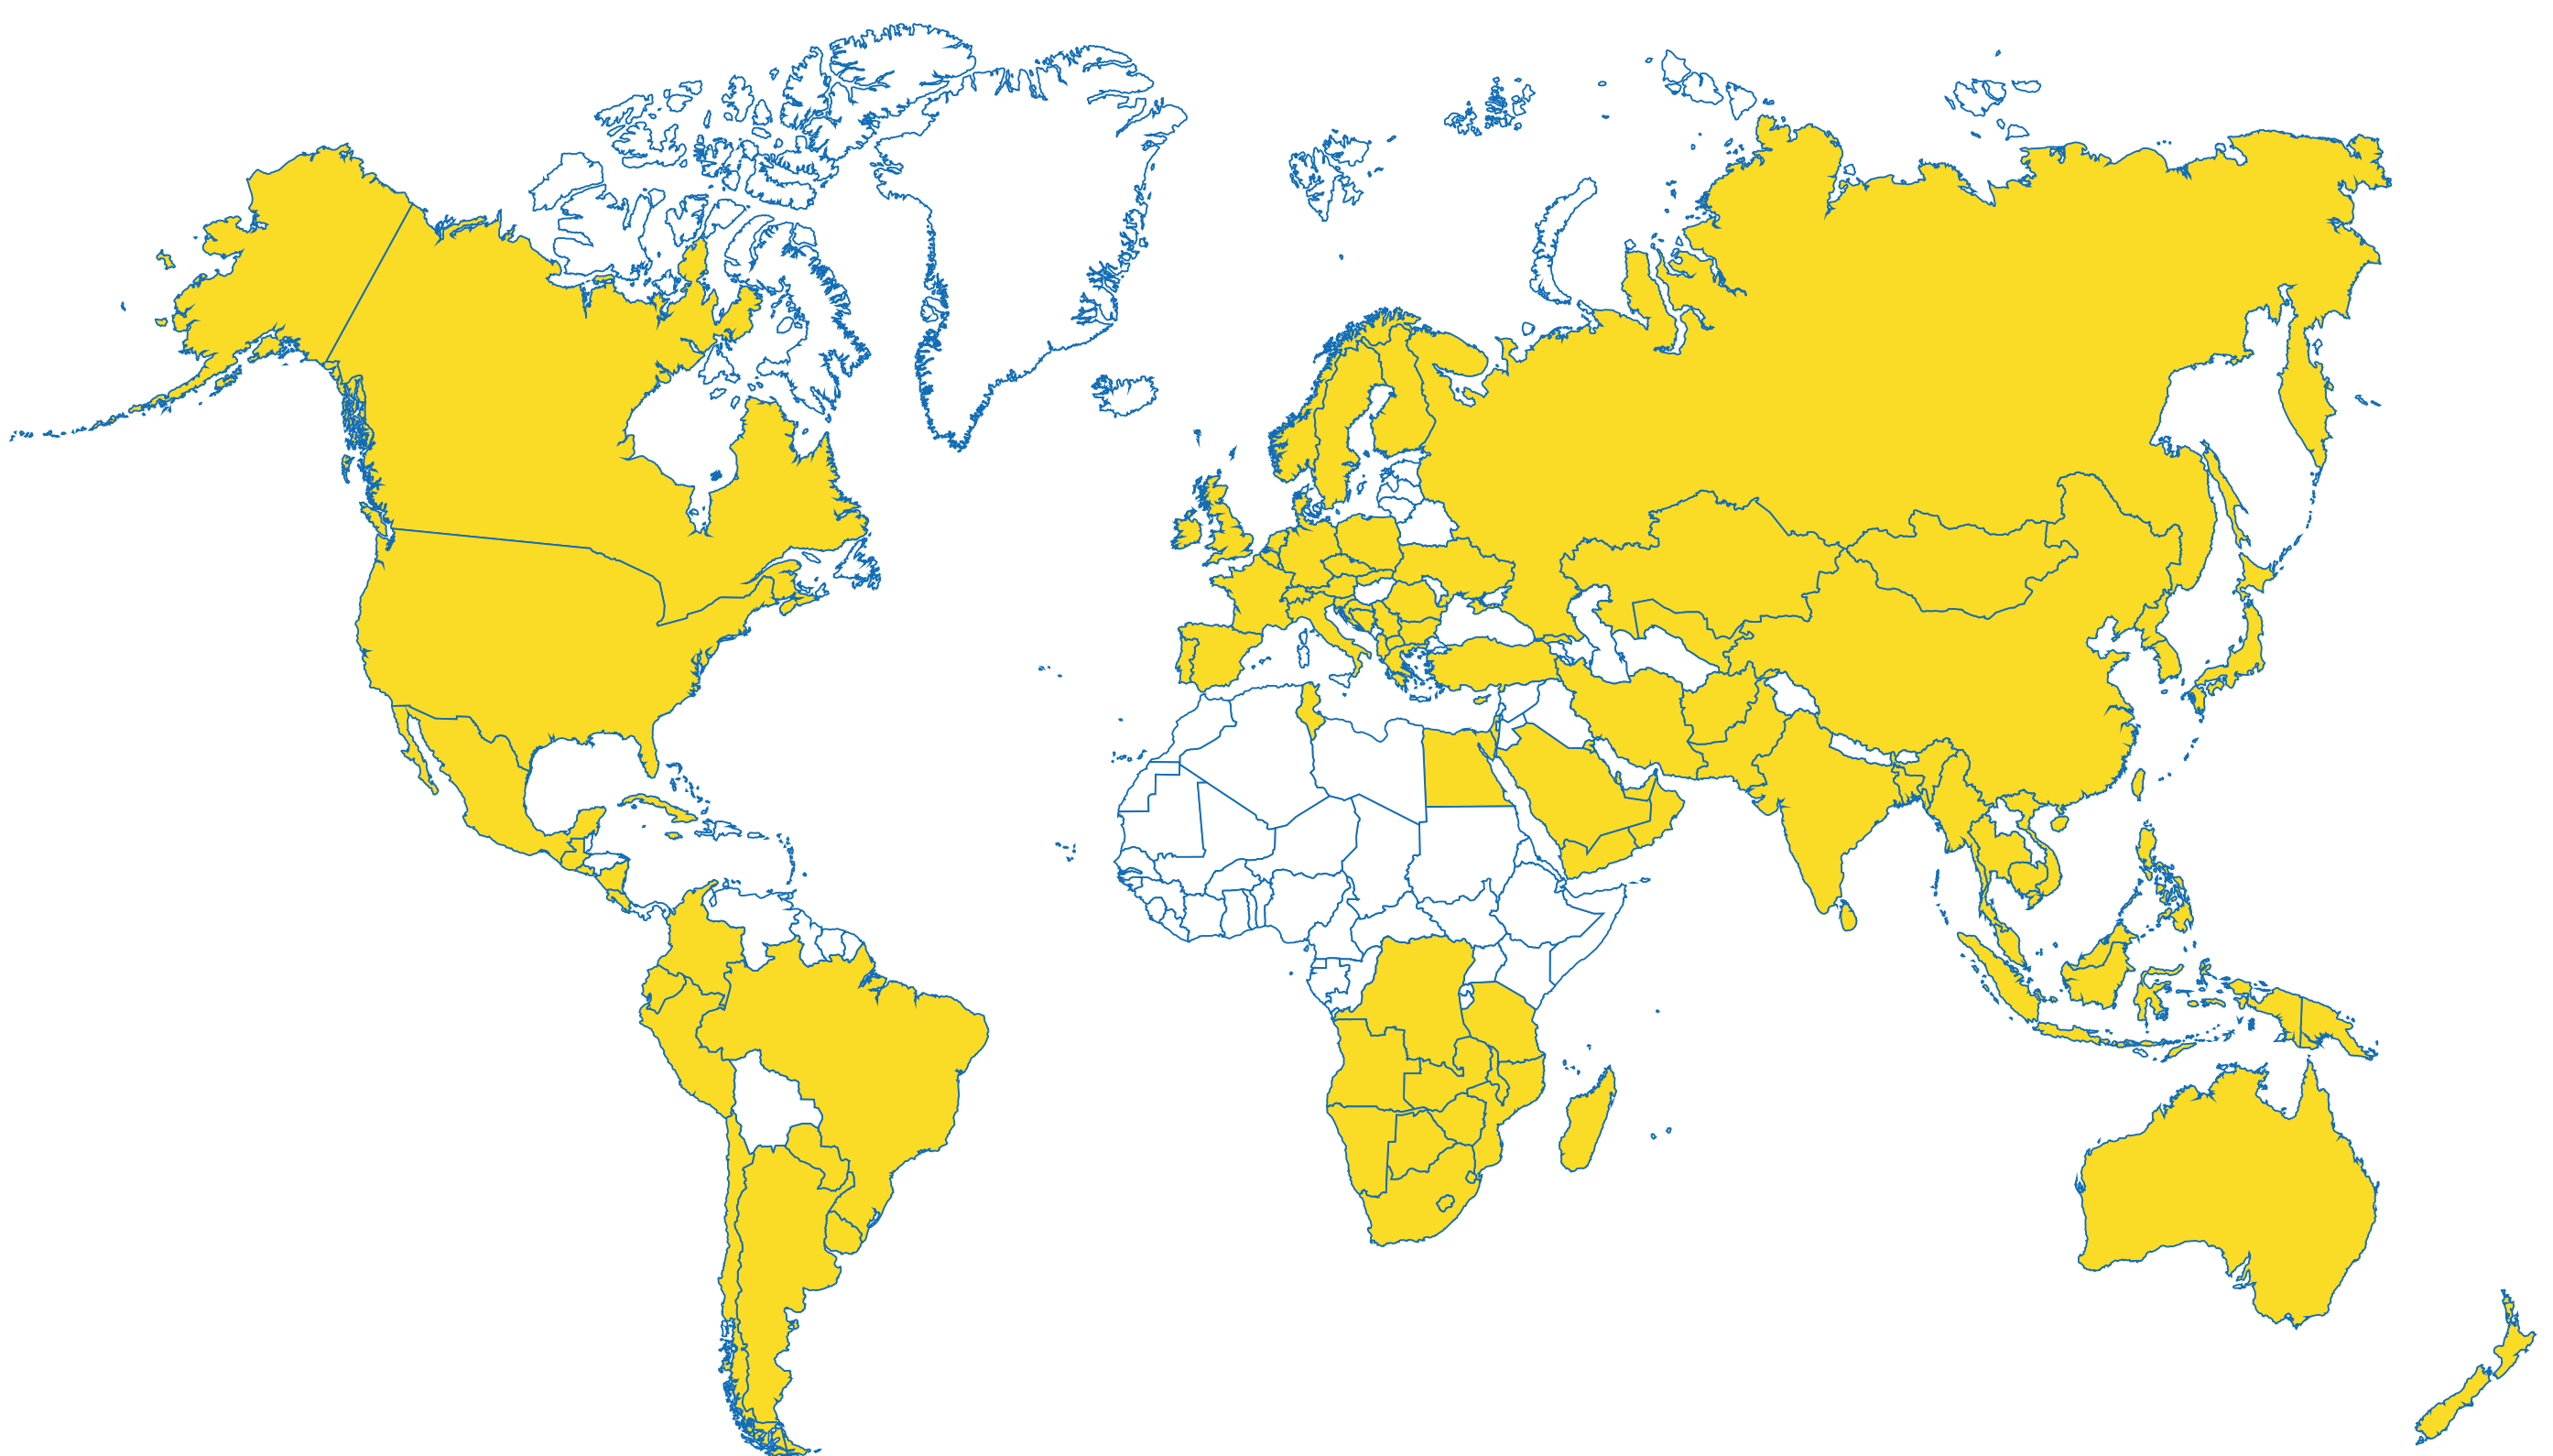

Cgcre endorses the Mutual Recognition Agreements (MRA) celebrated by international accreditation agencies.**

*Cgcre certifies the technical competence of services and thus, exempts its clients from conducting multiple analyses. Products and materials do not need to be re-tested in imported countries as the calibration and/or tests performed at LABELO certify their quality.

**Cgcre is bound by the Mutual Recognition Agreements (MRA) celebrated by international accreditation agencies, and recognize the practices employed in other systems of accreditation as equivalent to its own, under the aforementioned Mutual Recognition Agreements. With such agreements, certificates and reports issued by LABELO will be accepted by other signatory accreditation agencies.
