

SYLLABUS

Program	Medicine
TRACK	Clinical Studies
COURSES	INTEGRATIVE SEMINARS I
CODE AND CREDITS	33043-02
HOURS	30
TERM:	Starting in 2017/1

OBJECTIVES: At the end of the course, students will:

Analyze clinical cases to learn about the most common medical situations they will be faced during their professional training.

COURSE DESCRIPTION:

The course will address the following topics: Discussion of clinical cases; Joint work involving internal medicine studies, surgery studies, pediatrics, gynecology and obstetrics, in an effort to give students the chance to connect these areas and develop clinical reasoning.

METHODOLOGY:

1st: Students will be given a pretest to assess the insights gained after reading the recommended bibliography;

2nd: Discussion of clinical cases presented by faculty. Class will be divided into two large groups: A and B.

- Presentation of bibliography and instructions;
- Digestive Bleeding;
- Urinary tract infection;
- Osteoporosis and prevention;
- Acute Abdominal Pain in Children;
- Obesity;
- Surgical wound infection;
- Autoimmune diseases in children;
- Acute abdomen in gynecological practice;
- Prematurity;
