

SYLLABUS

Program	Medicine
TRACK	Internal Medicine
COURSE	Medical Propaedeutics II
CODE AND CREDITS	33139-19
HOURS	285
TERM:	Starting in 2016/1

OBJECTIVES: The course intends to equip students to diagnose patients.

COURSE DESCRIPTION:

The course will provide students with deeper insights into the skills that were addressed in the course on Medical Propaedeutics I. Faculty will employ strategies that will equip students to conduct the medical history of patients and physical exams and, consequently, diagnose the patient. Students will develop reflective thinking and put in practice their background knowledge on clinical and surgical specialties, medical informatics (communication and information technology) and bioethics.

METHODOLOGY:

The course will blend theory and practice.

- Theory activities:

Medical chart;

Bioethical Aspects of the Doctor-Patient Relationship;

Medical Protection Measures;

Heart Failure;

Osteomuscular Pain Disorders;

Hypoalbuminemia - Cirrhosis and Chronic Diarrhea;

Precordial catch syndrome;

Hypoalbuminemia;

Nephrotic and Nephritic Syndromes;

Acute Abdomen Syndrome;

Occlusive peripheral arterial disease;

Respiratory Failure Syndrome;

Endocrine Syndromes;

Renal Failure Syndrome;

Peripheral Nervous System Syndromes.
