

SYLLABUS

Program	Medicine
TRACK	Family and Community Medicine
COURSE	Public Health II
CODE AND CREDITS	33722-05
HOURS	75
TERM:	Starting in 2016/1

OBJECTIVES: At the end of the course, students will:

Be provided with lectures and seminars as well as teaching experiences in Family and Community Medicine Primary Care.

COURSE DESCRIPTION:

In this course, students will develop theory and practicum work in Primary Care - Collective Health in the health care system. Students will engage in discussions on health and its determinants, conception, legislation, construction and evolution of the Unique Health System (SUS), as well as experience in Health Units working with Primary Care. The course will also provide students the chance to participate in dedicated seminars.

METHODOLOGY:

- Students will be provided deeper insights into the topics covered in the courses on Integrated Work in Health and Collective Health I, with an eye to the clinical specificities of Family and Community Medicine and Primary Care;
- Students will work in scenarios associated with Primary Care;
- Students will attend seminars on Family and Community Medicine and Primary Care.
